Covey Australia

“Crafting Your Perfect Shower into a Ritual of Comfort”

Covey Australia

ABOUT US

Covey Australia is dedicated to providing top-quality shower screens and installation services to our customers, with local stocks in Girraween, Sydney, and Coopers Plains, Queensland. With thousands of sizes and the most comprehensive color options available, we aim to meet your needs for modern and stylish shower screen designs and renovations.

With years of experience in the industry, we have established ourselves as a trusted partner for bathroom suppliers in Sydney and are gradually expanding our services nationwide across Australia. Over the past decade, Covey Australia has been professionally serving our customers, and we highly appreciate the support from our valued Clients. Moving forward, the Covey team will continue to offer brilliant products and exceptional installation services.

- Custom Shower Screens

Covey Australia currently offers multiple shipping options for all shower screens and fittings across Australia. More details can be found in our Delivery Terms.

- Retailers Delivery
- Couriers Delivery
- Installation Delivery
- Residences Delivery
- Customer Pickup

DELIVERY

Covey Australia's delivery turnaround time for standard products is 3-7 business days if the purchased items are in stock. For customized products, delivery takes 7-10 business days from the receipt of the final updated order with job onsite measurements confirmed by clients. For remote locations, please contact our sales team for more information and to reach an agreement. For additional details, please refer to our Delivery Terms.

LEAD TIME

Covey Australia is dedicated to providing our clients with strong support for our products, services, and markets. Our 30-day return policy allows you to return or exchange items within this period. Items must be in their original packaging and condition, subject to inspection by Covey Australia staff. If 30 days have passed since your purchase, a refund or exchange may not be granted.

To be eligible for a return, your item must be unused, in the same condition that you received it, and in the original packaging. Please note that a restocking fee or repacking fee will apply to any return or exchange procedures. Damaged items, missing parts, nano-coating, delivery costs, and extra handling costs are not refundable. For more details, please refer to our Return Policy.

WARRANTY COVERAGE

This warranty provides coverage for 5 years on glass, 2 years on metal fittings, and 1 year on plastic parts, effective for all transactions from August 1, 2024. Proper maintenance is essential to prolong the life of the product and to maintain the rights stated within this warranty. The care and maintenance instructions must be followed to ensure eligibility for any warranty claims.

This warranty is non-transferable and covers only the original purchaser of the product. The original purchaser must provide proof of purchase, product certification issued by Covey Australia, and evidence of installation by a licensed glazier to facilitate any claims. Covey Australia will NOT be responsible for any DIY (Do It Yourself) installations of our shower screens. This warranty applies to all Covey Australia shower screen products.

MAINTAINANCE

FOR HINGES AND GLASS MOUNTING BRACKETS

Regular maintenance of your screen hinges and fittings is necessary to keep them functioning smoothly. Every 3-6 months:

- Check that all screws on the hinges and glass mounting brackets are firmly secured; tighten any screws that you find have loosed.
- Clean any dirt build up with warm water and a small amount of dish washing liquid, be sure to rinse well and pat dry with a clean cloth.
- Use a few drops of machine oil to lubricate moving parts of the hinges

CLEANING & CARING YOUR SHOWER SCREEN

NOTE: Wiping the glass dry with a microfiber cloth and/ or using a squidgy after showering will help limit scum build ups on glass and reduce the need for heavier cleaning.

- When cleaning your shower screen, only use products specifically designed for shower screens and follow the product instructions for best results.
- Alternatively, you can make an effective cleaner by mixing 1 part white vinegar to 10 parts water. Spray or sponge the vinegar mixture on the glass, then wipe and buff dry with a soft, lint-free cloth.

IMPORTANT

- Failure to follow the care and maintenance instructions on this page may void all warranties.
- Do not use blades, metal scrapers, abrasive cloths/sponges, steel wool, or abrasive or acid cleaners on any part of your shower screen.
- Do not allow cleaning agents or liquids, including water, to remain in contact with the glass or frames for long periods

“Frameless Collection”

CVP031

Frameless Single Sliding Door

Without a visible frame or border around the glass, the CVP031 model features a frameless sliding design. The glass is attached to the wall and floor using specialized clips, rollers, and a strong railing bar, creating a sleek, minimalist, seamless, and streamlined look. This aesthetically pleasing design can increase the sense of space in the shower area.

Semi-frameless shower screens offer a balance between style, functionality, and affordability. They are a popular choice for many homeowners in a limited room, as they provide a luxurious look without the high cost of fully frameless shower screens. Outward swing pivot doors allow to install as corner shape as well as wall to wall from a small size at 700mm to 1320mm wide. It's a perfect choice for limited space while there's a wider entrance opening space needed.

- Frames can be cut short to fit smaller sizes than adjustment range mentioned in above table.

These semi-frameless double corner sliding doors are perfect for corner installations, optimizing bathroom space. They feature centrally opening doors that slide smoothly for easy access and a spacious feel. The adjustable sliding mechanism ensures a precise fit and smooth operation. A watertight seal prevents leaks and water damage, while the high-quality construction guarantees long-lasting performance and durability.

The Wall to Wall (W2W) feature is standard in this model, with sizes ranging from 920mm to 1750mm, eliminating the need for customization. For W2W sizes below 1200mm, a knob handle is provided to allow a wider entrance. Sizes above 1200mm are equipped with a square handle for an enhanced aesthetic match with the shower screen. The watertight seal keeps water contained within the shower, preventing leaks and damage. Made from premium materials, this model ensures long-lasting durability and reliable performance.

Semi-frameless single sliding doors are ideal for bathrooms with limited space, offering an economical shower option. They can be installed with a return panel to create an L-shaped shower screen. Reversible installation allowing you to fit them from left to right or right to left, depending on your bathroom design.

IMPORTANCE

- Precise measurements are necessary. When customers measure the floor, the area should be ready for installation, with tiles and plumbing completed.
- If there is an existing shower screen, it should be removed before measuring for a new one. It's better to measure after removal. Measure the potential installation space as precisely as possible. A measuring tape or laser measurer shall be used.
- Draw a floor plan and place all vanities, toilets, and tubs with their dimensions to see how much space is left for the shower screen.
- Examine the space and determine the most practical location for the shower. Consider how the shower door will operate, ensuring it won't hit anything if it opens outwards.

MEASUREMENT

PRODUCT SELECTION

- Shower Screen Collections: Choose from Frameless, Framed, Single Panel, or Bath Screen.
- Shower Screen Opening Types: Sliding or Hinge.
- Shower Screen Models: Specify the model number and choose between Wall-to-Wall or L-shape configurations.
- Shower Screen Fitting Colors: Choose from 6 available colors.
- Bathroom Space Sizes: Standard or Customized.

■ Additional Services

√ Nano-coating Services: If yes, please specify the installation direction. Treatment will only be applied on the side of the shower area.

√ Delivery Services: If yes, please provide contact details.

√ Installation Services: If yes, please provide contact details.

For any goods received, retailers MUST carefully double-check the item's model, size, color, and condition to ensure you are receiving the correct and well-conditioned items. If there are any discrepancies or damages, please contact us immediately for correction. If any obviously incorrect items are delivered and the customer proceeds with installation, Covey Australia will charge for the damaged product cost and will not be responsible for the installation costs involved. Covey Australia will arrange for re-delivery to the retailer's store but will not be responsible for any re-delivery or courier fees to end-user customers.

This must be done within a 7-day period of identifying the fault, detailing a description of the fault, with details of how and when it occurred. Provide photos if possible, as well as a copy of the proof of purchase and installation provided by Covey Australia, if directly shipped by courier of Covey Australia. For any item shipped by retailers' appointed courier, Covey Australia will not be responsible for any glass or hardware damage or loss during transportation. Retailers shall claim loss from relevant courier company. The Covey Australia retailer or Covey Australia will assess whether the lodged claim is covered by the product warranty and proceed with the claim process if applicable.

ACCEPTANCE CHECK

DISCLAIMER

The information provided is representative of the actual products available at the time of printing. The specifications depicted are subject to change without notice as we continuously develop our products.

Given that the shower screen is made of glass, it must be handled properly and carefully. Any damages incurred during installation will be the responsibility of the relevant installer, and warranties will be waived.

All products MUST be installed by a professional glazier with a valid glazier license. If installed by non-authorized installers, warranties will be waived.
